

Special Issue

Advances in the Intersection of Computer Graphics, Image Processing, and Artificial Intelligence

Message from the Guest Editors

We seek original studies and surveys that push the boundaries of research at the intersection of computer graphics, image processing, and artificial intelligence. We invite contributions that demonstrate novel methodologies, system architectures, or applications which leverage AI-driven techniques to enhance visual computing, from the generation and analysis of 2D/3D content to real-time rendering and perceptual understanding.

Guest Editors

Dr. Simon Kolmanič

Dr. Štefan Kohek

Dr. Damjan Strnad

Deadline for manuscript submissions

10 February 2026

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
