

Special Issue

Recyclable Materials in Concrete Technology: Research Progress and Application

Message from the Guest Editors

The Special Issue on "Recyclable Materials in Concrete Technology: Research Progress and Application" focuses on the use of Recyclable Materials in Concrete Technology.

This special issue aims to gather works related to the use of recyclable materials in the composition of concrete. Contributions related to research work and applications of these materials are welcome.

The works may contain investigations related to the mechanical properties, the behavior of the concrete in a fresh state, the durability, the thermal and acoustic properties, the economic evaluations, the ease of execution or the repair and reinforcement of the elements built with this material.

Guest Editors

Prof. Dr. Alfonso Cobo

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
