

Special Issue

Resonant Converter in Power Electronics Technology

Message from the Guest Editors

We are inviting submissions of original research to a Special Issue of Applied Science on the subject of “Resonant Converter in Power Electronics Technology”. In recent years, resonant converters have played an important role in power electronics technology for different applications such as electric vehicle, renewable energy system, bidirectional power flow for battery charger, and industry applications. This Special Issue focuses on the development of novel resonant converter topologies in power electronics. Topics of interest for this Special Issue include but are not limited to the following:

- New trends and technologies for resonant converters
- Energy storage technologies
- Renewable energy conversion
- Integration of renewable energy technologies into the grid
- Resonant converters for electric vehicle applications
- Resonant converters for switching mode power supplies
- Resonant converters for industry applications

Guest Editors

Prof. Dr. Bor-Ren Lin

Department of Electrical Engineering, National Yunlin University of Science and Technology, Douliou City, Yunlin 640, Taiwan

Prof. Dr. Chien-Ming Wang

Department of Electrical Engineering, National Ilan University, Yilan, Taiwan

Deadline for manuscript submissions

closed (31 October 2021)

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
