

Special Issue

Reinforced Concrete: Properties and Applications

Message from the Guest Editors

I am pleased to invite you to contribute to an upcoming Special Issue of *Applied Sciences* called Reinforced Concrete: Properties and Applications. Submissions addressing a wide range of topics related to innovative and sustainable concrete materials, including, but not limited to, the following, are welcomed: - Novel concrete materials with enhanced performance characteristics; - Advances in the durability, strength, and sustainability of reinforced concrete; - Cutting-edge applications of reinforced concrete across diverse sectors, including transportation, buildings, energy, and urban infrastructure; - Case studies demonstrating the potential of innovative materials to revolutionize the design, construction, and maintenance of concrete infrastructure (this topic is particularly encouraged); - Research focused on optimizing material selection for specific structural applications; - The deployment of innovative concrete materials in new construction, strengthening, and rehabilitation projects within both public and private sectors...

Guest Editors

Prof. Dr. Wael Zatar

College of Engineering & Computer Science, Marshall University,
Huntington, WV 25755, USA

Dr. Yuguang Yang

Department of Engineering Structures, Delft University of Technology,
Delft, The Netherlands

Deadline for manuscript submissions

closed (20 August 2025)

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
