

Special Issue

Research on Computational Biology and Bioinformatics

Message from the Guest Editors

This Special Issue will highlight cutting-edge research across all aspects of Computational Biology and Bioinformatics. We welcome original contributions on topics including, but not limited to, the following: (1) Development of novel algorithms and tools for analyzing existing or emerging biological data; (2) Application of innovative computational biology methods or bioinformatics strategies to address specific biological questions; (3) Benchmarking studies or comprehensive reviews of contemporary computational biology tools and algorithms.

Guest Editors

Dr. Kai Hu

Department of Molecular, Cell and Cancer Biology, University of Massachusetts Chan Medical School, 364 Plantation Street, Worcester, MA 01605, USA

Dr. Haibo Liu

Department of Molecular, Cell and Cancer Biology, University of Massachusetts Chan Medical School, 364 Plantation Street, Worcester, MA 01605, USA

Deadline for manuscript submissions

30 August 2025

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
