

## Special Issue

# Smart City Environmental Monitoring Systems

### Message from the Guest Editors

Environmental sustainability and smart city development have become hot topics in recent years, and these missions have been explicitly campaigned in the United Nation's Sustainable Development Goals (e.g., SDG3, SDG7, SDG11, and SDG13). The SDGs aim to promote sustainable and healthy living environments and alleviate environmental risks induced by climate change, urban air pollution, and associated human factors. This Special Issue aims to publish visionary papers on the latest advancement of technologies in environmental monitoring, environmental data analysis, and delivery of associated information to the general public.

**Keyword** Smart and Sustainable Community; Community-based Environmental Monitoring Network; Citizen Science; Microsensor Technology and Development; Field Experiments in Environmental Discipline; Internet of Things (IoT); Machine Learning and Data Assimilation; Artificial Intelligence and Big Data Analytics; Environmental Remote Sensing; Environmental Informatics and Modelling; Environmental Data Openness and Coordination; Data-driven Solutions for Environmental Sustainability; Transportation Monitoring; City Mobility

### Guest Editors

Dr. Yun Fat LAM

Department of Geography, The University of Hong Kong (HKU), Hong Kong, China

Dr. Hugo Wai Leung Mak

1. Department of Mathematics, The Hong Kong University of Science and Technology, Hong Kong SAR, China

2. Department of Mathematics, The Chinese University of Hong Kong, Hong Kong SAR, China

### Deadline for manuscript submissions

closed (31 December 2023)

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

---

### Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo  
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,  
20133 Milano, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering )
