

## Special Issue

# Advances in Space Biology: Cell Behavior in Microgravity

### Message from the Guest Editors

Nowadays, Space Biology has become a highly topical scientific field that has increasingly earned the interest of the Scientific Community.

This Special Issue, "Advances in space biology: cell behavior in microgravity", has the goal to describe how Space Biology has modified our perception of cell biology. In particular, it aims to: a) focus on the most recent discoveries on microgravity-induced cell responses and highlight the different mechanisms and biological strategies by which cells (derived from all kingdoms of life) adapt/react to the space environment; b) define the molecular and cellular mechanisms induced by microgravity and develop possible protection strategies; c) finally, discuss the experimental assessment of the effects of real and simulated microgravity in order to delineate the positive and negative aspects of the chosen approaches and facilitate the interpretation of the results obtained.

---

### Guest Editors

Dr. Maria A. Mariggiò

Department of Neuroscience, Imaging and Clinical Sciences, University "G. d'Annunzio" of Chieti-Pescara, 66100 Chieti, Italy

Dr. Giulia Ricci

Department of Experimental Medicine, Second University of Naples, Naples, Italy

---

### Deadline for manuscript submissions

closed (31 October 2020)

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

### Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo  
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,  
20133 Milano, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering )
