

Special Issue

Structural and Earthquake Engineering

Message from the Guest Editor

The focus of this Special Issue is on structural and earthquake engineering, including linear, nonlinear, stochastic, parametric, discrete, and dynamic programming/modelling in these fields. Articles submitted to this Special Issue can also be concerned with the most significant recent developments in computational methods, soft-computing techniques, optimization, evolutionary algorithms, design under uncertainty, generative and parametric design, and their applications in structural and earthquake engineering. This Special Issue will facilitate the exchange of ideas in topics of mutual interest within the applied science community, sharing advanced numerical methods and software tools.

Guest Editor

Dr. Alessandra Fiore

Assistant Professor, Politecnico di Bari, DICAR, Via Orabona 4, 70125 Bari, Italy

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
