

## Special Issue

# Toward Sustainable Engineering Structures for Better Safety in Built-Environment II

### Message from the Guest Editors

The concept of safe design in architectural and civil engineering is important for protecting humanity, considering the economic, environmental, and social aspects of society and their capacity and opportunity to maintain and improve the quality of life without degrading the quantity and quality. This Special Issue covers various research topics related to safety and sustainability issues in the recent engineering-built environment. The results disseminated in this Special Issue will be helpful in understanding how to make our society a better place by utilizing scientific and engineering methods, which is of interest for potential readers of *Applied Sciences*. The manuscripts submitted to this Special Issue will be subject to a prompt peer review process for the rapid and wide dissemination of research results, developments, and applications. The scope of this Special Issue covers all the aspects of architectural and civil engineering, including the behavior of various structural, geotechnical, and environmental components and systems.

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

---

### Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo  
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,  
20133 Milano, Italy

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering )
