

## Special Issue

# Advances in the Synthesis of Biologically Important Intermediates/Drugs

### Message from the Guest Editor

We are inviting submissions to the Special Issue on Advances in the Synthesis of Biologically Important Intermediates/Drugs. Chemical synthesis is the cornerstone in the development medicinal chemistry forming the basis for discovering compounds with new physical or biological properties. This special issue will focus on the advancement of the science of chemical synthesis from organic and inorganic chemistry. We invite submissions exploring cutting-edge research and recent advances in method development pertaining to chemical synthesis. Both theoretical and experimental studies are welcome, as well as comprehensive review papers.

### Guest Editor

Prof. Dr. Tricia Naicker

Discipline of Pharmaceutical Sciences, University of KwaZulu Natal,  
Durban 4000, South Africa

### Deadline for manuscript submissions

closed (20 December 2022)

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering )
