Application of AI Technology in Intelligent Vehicles and Driving

Message from the Guest Editors

In the rapidly evolving landscape of advanced driver-assistance systems (ADAS) and intelligent vehicles, artificial intelligence (AI) has become a tangible and integral component of modern vehicle systems. This Special Issue focuses on the transformative role of AI in redefining the fields of intelligent vehicles and driving, exploring both groundbreaking advancements and the challenges that lie ahead.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
