

Special Issue

Advances in Fiber Lasers and Their Applications

Message from the Guest Editor

This Special Issue is dedicated to high-quality submissions focusing on the design, optimization, and applications of fiber laser systems. Research areas may include (but are not limited to) the following:

- High-power continuous-wave or pulsed fiber lasers;
- Ultrafast fiber lasers;
- Coherent and spectral beam combination;
- Advanced laser parameter controlling technologies;
- Industrial, medical, and scientific applications of fiber lasers;
- Laser plasma technologies.

Guest Editor

Prof. Dr. Haitao Zhang

State Key Laboratory of Precision Space-Time Information Sensing Technology, Department of Precision Instrument, Tsinghua University, Beijing 100084, China

Deadline for manuscript submissions

21 December 2026

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
