

Special Issue

Cloud Computing: Privacy Protection and Data Security

Message from the Guest Editors

In the era of rapid technological advancement, cloud computing has emerged as a cornerstone of modern IT infrastructures, enabling seamless data storage, processing, and accessibility. However, the increasing reliance on cloud solutions has brought forth critical concerns regarding data security and privacy. This Special Issue is dedicated to addressing these challenges head-on by presenting state-of-the-art research, insights, and innovative solutions that aim to fortify data security and uphold user privacy in cloud computing environments. We invite contributions from researchers, practitioners, and experts in the field to share their knowledge and expertise on safeguarding sensitive information in the cloud. Join us in delving into the myriad dimensions of security and privacy within the expansive realm of cloud computing. More information can be found:

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
