

Special Issue

Tunneling and Underground Engineering: From Theories to Practices

Message from the Guest Editors

We are inviting submissions to a Special Issue on Tunneling and Underground Engineering: From Theories to Practices. It can be seen from the urbanization process of developed countries that when the level of urbanization reaches 50%, a series of problems (e.g., urban population congestion, traffic congestion, environmental pollution) will intensively erupt. To meet the ever-growing needs of urban development and social activities, tunnels and underground development spaces have become the best solutions. The purpose of this Special Issue is to create a channel for knowledge sharing of fundamental mechanics theory and advanced tunnel construction technology. Both theoretical and engineering applications are welcome, as well as comprehensive reviews and survey papers. Keywords

- tunneling
- underground construction
- tunnelling mechanics
- risk assessment
- construction management
- monitoring and maintenance
- underground information modelling
- machine learning in underground engineering

Guest Editors

Prof. Dr. Dajun Yuan
Dr. Dalong Jin
Dr. Xiang Shen

Deadline for manuscript submissions

closed (30 August 2023)

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
