

## Special Issue

# Application of Fluid Mechanics and Aerodynamics in Aerospace

### Message from the Guest Editors

Fluid mechanics and aerodynamics are fundamental disciplines that are indispensable to the aerospace and aviation sectors, providing the requisite theoretical foundations and technological infrastructure for the precipitous growth of the aerospace industry. In a concerted effort to galvanize academic discourse and to foster technological breakthroughs within this domain, we are delighted to announce a call for papers for a Special Issue entitled “Application of Fluid Mechanics and Aerodynamics in Aerospace”. The primary aim of this Special Issue is to collate cutting-edge research findings in the fields of fluid mechanics and aerodynamics, and to examine the critical roles that these scientific disciplines occupy within aerospace technology.

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

### Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo  
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,  
20133 Milano, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering )
