Special Issue

Application of Knowledge Graph in Communication Engineering

Message from the Guest Editor

The field of communication engineering is evolving rapidly with the advent of advanced technologies like Knowledge Graphs, which organize and integrate complex data for improved decision making and automation. This Special Issue aims to explore the latest developments, challenges, and applications of Knowledge Graphs in communication engineering. We invite high-quality, original research papers that address theoretical, practical, and implementation aspects.

Guest Editor

Dr. Yucong Duan

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32, 20133 Milano, Italy

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:
JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
