

Special Issue

Petroleum Engineering: Production Forecasting, Process Design, and Implementation

Message from the Guest Editors

This Special Issue aims to collect high-quality original research articles and review papers from the fields of Production Forecasting, Process Design, and Implementation in Petroleum Engineering. Topics of interest for this Special Issue include, but are not limited to:

- Production forecasting for various enhanced oil recovery (EOR) methods;
- Design and field implementation of various EOR processes;
- Machine learning applications in Petroleum Engineering;
- Production forecasting for simulated horizontal wells with multi-stage hydraulic fractures;
- Modeling and optimizing multi-stage hydraulic fractures;
- Advanced optimization algorithms for production forecasting;
- Experimental and numerical modeling of single and multiphase flows in oil and gas reservoirs;
- Design and field implementation of water shutoff technologies and conformance control treatments;
- Design and field implementation of CO₂ utilization and storage;

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
