

Special Issue

State-of-the-Art Environmental Sciences in USA

Message from the Guest Editors

This Special Issue aims at publishing a collection of research contributions illustrating the recent achievements in all aspects of the development, study, and understanding of Environmental Sciences. We hope to establish a collection of papers that will be of interest to scholars in the field. Contributions in the form of full papers, reviews, and communications about related topics are very welcome.

The aim of this Special Issue focuses on “The State-of-the Art Environmental Sciences in the USA” is to promote the advancements in environmental sciences in the areas of fossil fuel processes, renewable energy and sustainability development, electrochemical processes, wastewater treatment and environmental remediation, solid waste management processes, valorization techniques, and waste-to-energy processes in the United States. The Special Issue also addresses key issues and concerns related to environmental sciences advancements. These focus areas are industrially and academically connected where technological innovation plays an important role to reduce greenhouse gas emission and environmental pollution.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
