

Special Issue

New Frontiers in Computational Intelligence

Message from the Guest Editor

This Special Issue will present a collection of the latest research in the broad field of Information Technologies (IT) with a specific focus on computing and artificial intelligence. Papers dealing with the acquisition, processing, storage, and transmission of information related to computing and artificial intelligence are within the scope of this Special Issue. Research results from academia and industry, either theoretical or practical, are welcome. We hope to provide a forum to disseminate the valuable results to a global community of researchers.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (Fluid Flow and Transfer Processes)
