

Special Issue

Cybersecurity

Message from the Guest Editors

We are inviting submissions to the Special Issue titled “Cybersecurity”. Cybersecurity is no longer a topic of interest only for computer scientists and engineers. Countless firms and companies are routinely experiencing major losses due to data breaches and the inability to execute their operations due to cyberattacks. Public services and research institutions are also constantly affected by the same issues. We invite submissions exploring not only defensive tools and mechanisms, but also proposals for assessing exposure to cyberattacks and for promoting a tradeoff between security, costs, and usability that is more aligned with the public interest. Both theoretical and experimental studies are welcome, as well as case studies, papers dealing with systematization of knowledge, and survey papers.

Guest Editors

Dr. Alberto Bartoli

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
