# Feature Review Papers in "Earth Sciences and Geography" Section

### Message from the Guest Editors

As the Editorial Board Members of the section Earth Sciences and Geography, we are glad to announce the Special Issue "Feature Review Papers in the 'Earth Sciences and Geography' Section". This Special Issue aims to collect high-quality reviews, systematic reviews, and meta-analyses from the field of earth sciences and geography

([https://www.mdpi.com/journal/applsci/sections/earth\\_sciences\\_geography](https://www.mdpi.com/journal/applsci/sections/earth_sciences_geography)). We hope all published papers will be widely read and highly influential in the field. The topics of interest for this Special Issue include, but are not limited to:

- Remote sensing;
- Geohazards;
- Geochemistry;
- Geophysics;
- Geotechnical engineering;
- Marine geoscience;
- Stratigraphic geology or stratigraphy;
- Hydrological and hydrogeological sciences;
- Environmental contamination;
- Climate studies.

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
