

Special Issue

Emerging Approaches for Secure and Resilient Cyber-Physical-Social Systems

Message from the Guest Editors

Critical infrastructures are at the core of our society. Protecting and securing them is crucial for guaranteeing the safety of citizens. As these infrastructures are heavily connected, this, as a result, makes the attack more sophisticated and targeted. The overall scenario is in continuous evolution, and novel emergent approaches are required to cope with the security and protection from physical and cyber threats and the correlated events. Moreover, the involvement of people and 'soft targets' could be a fundamental resource in the prevention, detection, reaction, and mitigation phases. The goal of this Special Edition is to collect highly relevant and outstanding research articles that are able to provide solutions for securing and protecting critical infrastructures. This Special Issue will benefit the research domain and the industry as a result. Prof. Eng. Antonio Ficarella

Guest Editors

Prof. Dr. Antonio Ficarella

Dr. Antonella Longo

Dr. Ali A. Ardebili

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
