

Special Issue

Innovative Techniques and Devices in Implant Surgical and Prosthetic Therapy

Message from the Guest Editors

Modern dentistry is characterized by a terrific growth of new technologies and techniques, especially in the fields of implantology, regenerative medicine, and tissue engineering. However, at the same time, an increase in the need for mini-invasive techniques has been witnessed for patients who are not able to undertake more complex rehabilitation treatments. This Special Issue focuses on all surgical prosthetic advanced techniques and devices, including and stressing the digital approach in oral surgery and in the prosthetic field related to advanced implant rehabilitation but highlighting also the possible mini-invasive alternatives and modern devices to achieve them.

Guest Editors

Prof. Dr. Gilberto Sammartino

1. DDS—DMD, Napoli, Italy
2. Full Professor, School of Oral Surgery, University of Naples “Federico II”, Napoli, Italy
3. Dean of Dental School, University of Naples “Federico II”, Napoli, Italy
4. Head of Postgraduate School, Oral Surgery University of Naples “Federico II”, Napoli, Italy
5. Specialized in Maxilo-Facial Surgery, Napoli, Italy
6. Founder and Past President, International Non transfusional Hemocomponents Academy (INHEMA), Napoli, Italy

Prof. Dr. Hom-Lay Wang

Professor and Director of Graduate Periodontics at School of Dentistry, the University of Michigan; Member of Task Force as Future Science Strategy for the American Academy of Periodontology (AAP) and Secretary of the Academy of Osseointegration (AO)

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
