Celebrating Applied Sciences Reaching the 20,000 Article Milestone: Invited Papers in the Section Energy

Message from the Guest Editors

Dear Colleague, This Special Issue aims to cover state-of-the-art methodologies, models and technical contributions for improving the reliability and performance of modern energy systems characterized by a high penetration of renewable energy sources, electric transportation, energy storage systems, smart homes and digitalization. To celebrate the recent publication of *Applied Sciences'* 20,000th paper and mark this special occasion together with our readers, the journal's Editorial Board invites researchers in all the areas of interest covered by Energy to submit high-quality original research or review articles.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
