

Special Issue

Novel Approaches for Biosensor

Message from the Guest Editors

There is increasing demand for the development of convenient and cost-effective biosensors that can be utilized in point-of-care applications by unqualified recruits. These biosensors help to detect and diagnose diseases in their initial phase and assist in new drug discovery. For this Special Issue, we invite the submission of regular as well as review papers on the following topics:

- Cell-based sensors
- Bio/electrochemical sensors
- Biomedical sensors
- Nanobio sensors
- 3D printed biosensors

Submissions on other topics are also welcome so long as they are within the theme of the Special Issue.

Guest Editors

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
