

Special Issue

Nutrients and Contaminants: Health Risks and Benefits

Message from the Guest Editors

Society is going through a new era, where science is gaining a prominent role as the only resource for an immediate response to critical situations. This may be the key to finding alternative resources to meet the demand for sustainable and high-quality products. This issue has as its objective the gathering of works, through an interdisciplinary approach, showing the relationships, synergies, and interrelationships of the different areas of science. The demand for renewable sources to reduce the food deficit, which will compromise the nutritional intake of macro and/or micronutrients in an increasingly near future, requires the development of new methodologies and techniques to obtain bioactives with high bioaccessibility and consequent bioavailability.

Guest Editors

Dr. Marisa Nicolai

Dr. Paula Pereira

Dr. Carla Mota

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
