

Special Issue

State of the Art in Recommendation and Mobile Systems for Tourism

Message from the Guest Editors

We are inviting submissions to the Special Issue entitled “State of the Art in Recommendation and Mobile Systems for Tourism”. The tourism industry is facing a major challenge given the COVID-19 pandemic. At first, traveling stopped, then started again with ups and downs, and tourism is still struggling as we are learning to live with the pandemic. However, while the tourism industry is changing, technology support for tourism is expanding its reach. In addition to classical tourist guides, virtual tourism gained attention. As we travel less, we still want to experience remote sites.

Guest Editors

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
