

## Special Issue

# Assessment and Rehabilitation of Existing Reinforced Concrete Structures and Infrastructures: Methods, Techniques and New Frontiers

### Message from the Guest Editors

The Special Issue dedicated to the *“Assessment and Rehabilitation of Existing Reinforced Concrete Structures and Infrastructures: Methods, Techniques, and New Frontiers”* is glad to welcome novel contributions on, but not limited to, the following topics:

- Existing r.c. and p.c. buildings and infrastructures (i.e., bridges, tunnels, dams, etc.)
- Reliability-based and semi-probabilistic methods for safety assessment
- Monitoring and testing
- Maintenance and LCA issues (i.e., predictive, proactive, etc.)
- Strengthening and retrofitting techniques
- Durability and sustainability of intervention on existing concrete structures

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

---

### Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo  
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,  
20133 Milano, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering )
