

Special Issue

Recent Advances in Renewable Energy Conversion and Storage

Message from the Guest Editor

Demands on renewable and sustainable energy resources are increasing due to the critical issues on environment. Therefore, significant efforts have focused on the development of the renewable energy conversion and storage technologies. We announce the launch of a new special issue which would assist people to follow up recent advances in the energy conversion and storage technologies. This would include but not limited to the solar/wind energy conversion, hydrogen storage, electrochemical energy storage, solar-thermal energy storage, and physical energy storage.

Guest Editor

Dr. Ki Chul Kim

Department of Chemical Engineering, Konkuk University, Seoul 05029, Korea

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
