Rheology of Fiber Suspensions

Message from the Guest Editors

Materials in the form of fiber suspensions are increasingly used in a wide range of material processing applications, such as composite forming, papermaking, or in the fabrication of nonwoven materials, building materials, health and care products, or in food processing. This Special Issue of *Applied Sciences*, “Rheology of Fiber Suspensions” is intended for a wide and interdisciplinary audience and covers recent advances in:

- Advanced experimental techniques for the description of the structure of the fiber network and the fiber structure and their evolutions during the flow of fiber suspensions;
- Innovative modeling approaches for the rheology of fiber suspensions in various concentration regimes and for fiber–fiber or fiber–fluid interactions;
- Advanced numerical approaches for the simulation of the flow of fiber suspensions in various industrial flow situations.

For further reading, please visit the [Special Issue website](#).

Guest Editors

Prof. Dr. Pierre Dumont

Dr. Laurent Orgéas

Dr. Florian Martoša

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
