

Special Issue

Spectroscopic Characterization of Polymers and Composite Materials

Message from the Guest Editor

I would like to invite you to submit or recommend original research articles, communications, or review papers for the Special Issue of *Applied Sciences*, which aim to show recent developments and innovative applications in polymers and composite materials research. Articles should feature novelty and high-quality spectroscopic data and analysis, and may be related to fundamental as well as highly applied research.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
