

Special Issue

Sustainability for Structural Engineering

Message from the Guest Editors

Often, a project's sustainability is centred on building services and energy, but we need to have a comprehensive view of how we integrate deeper sustainability. It is the responsibility of structural engineers to actively discuss solutions to reduce carbon footprints with architects and clients.

Simply said, sustainable techniques in structural design are increasingly becoming a requirement rather than a good to have. To have the greatest impact, sustainability must be understood holistically across all disciplines, rather than being limited to building services and energy output.

Therefore, the aim of this special issue is to collect the results of research and practice experiences in sustainable building structures, and other relevant topics. Dr Roy warmly invites authors to submit their papers for potential inclusion in this Special Issue of "Sustainability for Structural Engineering", in the journal of "Applied Sciences".

Guest Editors

Dr. Krishanu Roy

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
