

Special Issue

Biomedical Photoacoustic and Thermoacoustic Imaging

Message from the Guest Editors

The special issue of the journal Applied Sciences “Biomedical Photoacoustic and Thermoacoustic Imaging” aims to cover recent advances in the development of photoacoustic imaging, thermoacoustic imaging, optical imaging, acoustic imaging, and related imaging techniques that bridge the merits of optics/microwave and acoustics.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
