

Special Issue

Unsaturated Soils: Testing and Modelling

Message from the Guest Editor

The Special Issue invites contributions dealing with the multi-scale laboratory and field testing, and monitoring of unsaturated soils (microstructural, mechanical, hydraulic, environmental), as well as the development and application of theoretical and computational tools to model the behaviour of the unsaturated soils and earthworks.

Guest Editor

Prof. Dr. Maria Mavroulidou

School of Engineering and Design, London South Bank University,
London SE1 0AA, UK

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
