

## Special Issue

# Active and Passive Approaches to Vibration Control in Flexible Mechanical Systems

### Message from the Guest Editors

We would like to invite you to contribute a paper for this Special Issue, which aims at collecting the most recent and cutting-edge developments on these relevant topics. Papers providing original results on theoretical studies, numerical or experimental applications, as well as extended state-of-the-art reviews on these topics and on those closely related, are welcomed.

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
