

Advances in Machine Learning and High-Performance Calculations for Innovative Technologies Development

Guest Editors:

Prof. Dr. Andrey Chernov

The Smart Materials Research Institute, Southern Federal University, Sladkova 178/24, 344090 Rostov-on-Don, Russia

Prof. Dr. Maria Butakova

The Smart Materials Research Institute, Southern Federal University, Sladkova 178/24, 344090 Rostov-on-Don, Russia

Deadline for manuscript submissions:

closed (30 November 2021)

Message from the Guest Editors

Major topics of interest, by no means exclusive, are:

- Advanced machine learning models, deep learning models, and model fusion;
- Advanced and high-dimensional data analytics, large-scale data mining;
- High-performance and multiscale simulation of complex systems and networks;
- Large-scale, stream, and online machine learning, algorithms, and software;
- Advanced neural networks techniques and their applications;
- Parallel and high-performance computing, hardware acceleration, novel computing algorithms, and software codes;
- Applications of machine learning and high-performance computing in research and industry.
