

Special Issue

Healthcare System Innovation

Message from the Guest Editors

Healthcare is undergoing a sector-wide transformation thanks to technological innovations. We anticipate significant improvements in areas ranging from decision support for healthcare professionals through big data analytics to supporting behavior changes through technology-enabled self-management, as well as social and motivational support. Furthermore, with cutting edge sensors and computer technologies, healthcare delivery could also yield better efficiency, higher quality and lower cost. Here, we welcome original research, as well as review articles, within but not limited to the following potential topics:

- Smart healthcare system analysis and design
- Computer-aided methods for design procedure and manufacture of healthcare system
- Computer and human-machine interaction of healthcare system
- Internet technology on healthcare system innovation
- Application of IoT (Internet of Things) on healthcare system
- Big data and artificial intelligence enabled healthcare systems

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Christos Douligeris
Department of Informatics, University of Piraeus, 18534 Piraeus,
Greece

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Applied Mathematics)
