

Special Issue

Feature Papers in the Astronomical Sciences

Message from the Guest Editors

I am delighted to announce the Special Issue entitled “Feature Papers in the Astronomical Sciences” dedicated to provide a distinguished collection of pioneering papers in the whole spectrum of astronomy, astrophysics, and cosmology. This Theme Issue aims to highlight recent advances and new cutting-edge developments across the field of astronomy, by publishing high-quality reviews and original papers from editorial board members, guest editors, leading researchers, and outstanding scholars invited by the Editorial Board and the Editorial Office of *Astronomy*. The special issue topics include but are not limited to observational and theoretical astronomy, astrophysics, astroparticle physics, cosmology, as well as on all aspects of gravitational physics. I hope that this collection will bring new interest in this old field as an attractive node for younger people as well as more experienced researchers who share an interest in this most majestic of all scientific fields.

Guest Editors

Prof. Dr. Spiros Cotsakis

1. Clare Hall, University of Cambridge, Herschel Road, Cambridge CB3 9AL, UK

2. Institute of Gravitation and Cosmology, RUDN University, ul. Miklukho-Maklaya 6, 117198 Moscow, Russia

Prof. Dr. Ignatios Antoniadis

Laboratoire de Physique Théorique et Hautes Énergies - LPTHE, Sorbonne Université, CNRS, 4 Place Jussieu, 75005 Paris, France

Deadline for manuscript submissions

closed (31 October 2024)

About the Journal

Message from the Editor-in-Chief

Astronomy (ISSN 2674-0346) is a new international, peer-reviewed, open access journal on observational and theoretical astronomy, covering astrophysics, astroparticle physics and cosmology, as well as on all aspects of gravitational physics. Its target is scientific excellence of publications and a transparent and efficient referee procedure, leading to an outstanding reputation within the scientific community of its research field.

Editor-in-Chief

Prof. Dr. Ignatios Antoniadis

Laboratoire de Physique Théorique et Hautes Énergies - LPTHE,
Sorbonne Université, CNRS, 4 Place Jussieu, 75005 Paris, France

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 27.6 days after submission; acceptance to publication is undertaken in 7.6 days (median values for papers published in this journal in the first half of 2025).
