### Message from the Guest Editor

Dear Colleagues,

We are pleased to announce that the *Atmosphere* is now compiling a collection of papers submitted by the Editorial Board Members (EBMs) of the journal and outstanding scholars in this research field. We welcome contributions as well as recommendations from the EBMs.

The purpose of this Special Issue is to publish a set of papers that typify the very best insightful and influential original articles or review. We expect these papers to be widely read and highly influential within the field. All papers in this Special Issue will be collected into a printed edition book after the deadline and will be well promoted.

You are welcome to send short proposals for submissions of Feature Papers to our Editorial Office ([atmosphere@mdpi.com](mailto:atmosphere@mdpi.com)) before submission.

## Message from the Editor-in-Chief

Continued developments in instrumentation and modeling have driven atmospheric science to become increasingly more complex with a deeper understanding of concepts, mechanisms, and interactions. This is the field that innovation built and it has led to a better appreciation for the complexity with atmosphere. Human life is intertwined in this complexity as we strive to better understand our atmosphere. Climate change is constantly stretching the limits of our thinking and forcing new ideas and concepts to be played out. Welcome to the Anthropocene!

## Author Benefits
