

Special Issue

Atmospheric and Ocean Optics: Atmospheric Physics

Message from the Guest Editors

This Special Issue aims to collect current novel papers, presented at the 25th International Conference “Atmospheric and Ocean Optics. Atmospheric Physics” (AOO–2019). We invite researchers to contribute original research papers, dealing with all aspects of atmospheric and ocean optics, atmospheric physics. Topics of interest include, but are not limited to:

- Molecular Spectroscopy and Atmospheric Radiative Processes
- Radiative regime and climate problems
- Optical Radiation Propagation in the Atmosphere and Ocean
- Wave propagation in random inhomogeneous media
- Nonlinear effects at radiation propagation in atmosphere
- Optical Investigation of Atmosphere and Ocean
- Laser and acoustic sounding of atmosphere and ocean
- Physics of the troposphere
- Structure and dynamics of the lower and middle atmosphere
- Dynamics of the atmosphere and climate of the Asian region
- Physics of the upper atmosphere
- Climatological studies of the upper atmosphere using GNSS
- The relationship processes in the lithosphere, atmosphere, ionosphere, magnetosphere

About the Journal

Message from the Editor-in-Chief

Continued developments in instrumentation and modeling have driven atmospheric science to become increasingly more complex with a deeper understanding of concepts, mechanisms, and interactions. This is the field that innovation built and it has led to a better appreciation for the complexity with atmosphere. Human life is intertwined in this complexity as we strive to better understand our atmosphere. Climate change is constantly stretching the limits of our thinking and forcing new ideas and concepts to be played out. Welcome to the Anthropocene!

Editor-in-Chief

Dr. Daniele Contini

Institute of Atmospheric Sciences and Climate (ISAC), National Research Council (CNR), Str. Prv. Lecce-Monteroni km 1.2, 73100 Lecce, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, Inspec, CAPlus / SciFinder, Astrophysics Data System, and other databases.

Journal Rank:

CiteScore - Q2 (Environmental Science (miscellaneous))
