

Special Issue

Hearing and Balance in Acoustic Neuroma

Message from the Guest Editors

Over the past 50 years, enormous progress has been made in the management of vestibular schwannomas (VSs).

This Special Issue is thus dedicated to hearing and balance in vestibular schwannoma. Topics will be centered on diagnostic and therapeutic aspects, include but are not limited to:

Audiological assessment and rehabilitation

- Hearing preservation surgery;
- Hearing rehabilitation strategies after loss of function;
- Outcomes in long-term perspective;
- Impact of hearing loss due to VS on daily life activities;

Vestibular assessment and rehabilitation

- Vestibular assessment in patients with VS;
- Implication of vestibular function on overall balance;
- Rehabilitation after surgery.

Hope that this Special Issue will offer a valuable contribution to the preservation and rehabilitation of function in the current management of vestibular schwannoma.

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Dr. Giacinto Asprella Libonati
Vestibology & ENT Unit, Giovanni Paolo II Hospital, 07026 Policoro, Italy

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank:

JCR - Q2 (Audiology and Speech-language Pathology) /
CiteScore - Q2 (Otorhinolaryngology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
