

Special Issue

Asymptotic Behavior of Stochastic Partial Differential Equations

Message from the Guest Editors

We are pleased to invite you to contribute to this Special Issue dedicated to the asymptotic behavior of stochastic partial differential equations. SPDEs is a central field in stochastic analysis, and thus the aim of this Special Issue is to publish a collection of novel research results that advance theoretical aspects of the asymptotic analysis of various systems and their application in statistical physics, chemistry, financial mathematics, and others. We welcome articles that address topics related to the analysis, approximation and inference of stochastic partial differential equations, particularly those related to small- and large-scale behavior, stochastic dynamics, interacting particle systems, and numerical approximations.

Guest Editors

Dr. Adina Oprisan

Department of Mathematical Sciences, New Mexico State University,
Las Cruces, NM 88001, USA

Prof. Dr. Valery Y. Glizer

The Galilee Research Center for Applied Mathematics, Braude College
of Engineering, Karmiel 2161002, Israel

Deadline for manuscript submissions

31 December 2025

About the Journal

Message from the Editor-in-Chief

Axioms is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Humberto Bustince

Department of Statistics, Computer Science and Mathematics, Public
University of Navarra, 31006 Pamplona, Spain

Author Benefits

Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.
