

Special Issue

Honorary Special Issue Dedicated to Prof. Anatolii Asirovich Gol'dberg (1930– 2008)

Message from the Guest Editors

This Special Issue commemorates Gol'dberg's fifteenth death anniversary and sixtieth anniversary of the start of his work in Lviv University, with a selection of articles in complex analysis written by authors who work in Gol'dberg's research fields, some of whom have been influenced by his results and/or have collaborated with him.

About the Journal

Message from the Editor-in-Chief

Axioms is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.
