

Special Issue

Modern Trends and Application of Decision-Making Theory, Stability and Control, 2nd Edition

Message from the Guest Editors

We aim to bring together contributions that reflect new trends and approaches in stability theory, approximation theory, control problems, and related topics. Topics include, but are not limited to:

- nonlinear system
- stability
- perturbation
- impulsive system
- approximation
- numerical methods
- control
- operators
- approximation methods
- approximative properties
- decision-making theory
- machine learning
- neural networks
- large language models
- computer use agents
- GUI automation

Guest Editors

Prof. Dr. Valentyn Sobchuk

Faculty of Mechanics and Mathematics, Taras Shevchenko National University of Kyiv, 4E Academician Glushkov Avenue, 03127 Kyiv, Ukraine

Prof. Dr. Oleksiy V. Kapustyan

Department of Integral and Differential Equations, Taras Shevchenko National University of Kyiv, 4E Glushkov Avenue, 03022 Kyiv, Ukraine

Deadline for manuscript submissions

20 September 2026

About the Journal

Message from the Editor-in-Chief

Axioms is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Humberto Bustince

Department of Statistics, Computer Science and Mathematics, Public University of Navarra, 31006 Pamplona, Spain

Author Benefits

Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility:

indexed within SCIE (Web of Science), dblp, and other databases.

Journal Rank:

JCR - Q2 (Mathematics, Applied)
