

Special Issue

Recent Advances in Applied Mathematics and Artificial Intelligence

Message from the Guest Editors

The journal *Axioms* is an international, open access journal which provides an advanced forum for studies related to mathematics, mathematical logic and mathematical physics. This Special Issue focuses on Applied Mathematics and Artificial Intelligence, since they have a wide range of applications in real life, such as engineering, physics, medicine, and economics. The aim of this Special Issue is to seek advancements in the discourse on all aspects of Applied Mathematics and Artificial Intelligence. This Special Issue invites papers on innovative proposals of the theory and application of Applied Mathematics and Artificial Intelligence.

About the Journal

Message from the Editor-in-Chief

Axioms is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.
