

## Special Issue

# Mathematical Optimization, Variational Inequalities and Equilibrium Problems: Theory and Applications

### Message from the Guest Editors

This Special Issue aims to disseminate recent advances in mathematical optimizations, variational inequalities and equilibrium problems, emphasizing the links between them. This Special Issue will address the following non-exhaustive list of topics: discrete and continuous optimization, linear and nonlinear programming, operational research, classical and generalized equilibrium problems and variational inequalities, complementarity problems, game theory and fixed-point methods. Authors are welcome to submit original and significant contributions on the above or other closely related areas, focusing on theoretical foundations, numerical and computational aspects, or real-life applications. Contributions may be submitted on a continuous basis before the deadline. After a peer-review process, submissions will be selected for publication based on their quality and relevance. We look forward to receiving your valuable contributions.

### Guest Editors

Prof. Dr. Andrei-Dan Halanay

Department of Mathematics, Bucharest University, Str. Academiei No. 14, 030018 Bucharest, Romania

Dr. Miruna-Mihaela Beldiman

"G.Mihoc-C.Iacob" Institute of Mathematical Statistics and Applied Mathematics of the Romanian Academy, Strada 13 Septembrie No. 13, 050711 Bucharest, Romania

### Deadline for manuscript submissions

1 June 2026

## About the Journal

### Message from the Editor-in-Chief

*Axioms* is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Humberto Bustince

Department of Statistics, Computer Science and Mathematics, Public  
University of Navarra, 31006 Pamplona, Spain

### Author Benefits

#### Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High visibility:

indexed within SCIE (Web of Science), dblp, and other databases.

#### Journal Rank:

JCR - Q2 (Mathematics, Applied)
