

Special Issue

Advances in Difference Equations

Message from the Guest Editors

This Special Issue will accept top-notch papers with unique research findings and focuses on the theory and applications of differential and difference equations, particularly in science and engineering. Moreover, the goal of this Special Issue is to bring together mathematicians, physicists, and other scientists to a platform of differential and difference equations where they can present their beneficial research to the intellectual community. Potential topics include but are not limited to:

- difference equations
- fractional difference equations
- delay difference equations
- weak solutions difference equations
- numerical methods for difference equations
- asymptotic behavior for difference equations.

Guest Editors

Dr. Azhar Ali Zafar

Department of Mathematics, Government College University, Lahore 54770, Pakistan

Dr. Nehad Ali Shah

Department of Mechanical Engineering, Sejong University, Seoul 05006, Republic of Korea

Deadline for manuscript submissions

closed (30 June 2024)

About the Journal

Message from the Editor-in-Chief

Axioms is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Humberto Bustince

Department of Statistics, Computer Science and Mathematics, Public
University of Navarra, 31006 Pamplona, Spain

Author Benefits

Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.
