

Special Issue

Recent Advances in Fuzzy Theory Applications

Message from the Guest Editors

This Special Issue seeks to highlight state-of-the-art research contributions and practical implementations and developments of fuzzy theory in real-world scenarios. We invite researchers, practitioners, and experts to submit original research articles, comprehensive reviews, and cutting-edge applications that contribute to advancing fuzzy theory. The focus will be on novel methodologies, interdisciplinary approaches, innovative applications, and emerging trends in fuzzy logic and systems. This Special Issue covers a broad spectrum of topics, including, but not limited to, the following:

- Fuzzy Systems and Models
- Fuzzy Decision-Making
- Computational Intelligence with Fuzzy Techniques
- Applications in Engineering and Technology
- Fuzzy Statistics and Uncertainty Modelling
- Emerging Interdisciplinary Applications
- Advances in Fuzzy Software and Tools

Guest Editors

Dr. R  dina Berkachy

School of Engineering and Architecture of Fribourg, HES-SO University of Applied Sciences and Arts of Western Switzerland, 1700 Fribourg, Switzerland

Prof. Dr. Manuel Arana-Jimenez

Department of Statistics and Operational Research, University of Cadiz, 11003 C  diz, Spain

Deadline for manuscript submissions

28 February 2026

About the Journal

Message from the Editor-in-Chief

Axioms is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Humberto Bustince

Department of Statistics, Computer Science and Mathematics, Public
University of Navarra, 31006 Pamplona, Spain

Author Benefits

Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.
