# Differential and Difference Equations: A Themed Issue Dedicated to Prof. Hari M. Srivastava on the Occasion of his 80th Birthday

### Message from the Guest Editor

This Special Issue of *Axioms* is dedicated to Professor **Hari Mohan Srivastava** on the occasion of his 80th Birthday, as recognition of his significant contribution in the field. Professor Srivastava's research interests include several areas of pure and applied mathematical sciences. He has published 33 books, monographs, and edited volumes, 33 book (and encyclopedia) chapters, 48 papers in international conference proceedings, and more than 1200 peer-reviewed international scientific research journal articles, as well as Forewords and Prefaces to many books and journals. Further details about Professor Srivastava's professional achievements and scholarly accomplishments, as well as honors, awards and distinctions, can be found at the following website:

<http://www.math.uvic.ca/~harimsri/> Differential and difference equations play an important role in many branches of mathematics. This Special Issue deals with the theory and applications of differential and difference equations. We invite high-quality original research papers, as well as survey papers related to the topic of this issue.

## About the Journal

### Message from the Editor-in-Chief

*Axioms* is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.
