

## Special Issue

# Advances in General Topology and Its Application

### Message from the Guest Editor

The aim of this Special Issue, which is devoted mainly to general topology, is to collect recent noteworthy results and original research focusing on the latest progress and developments in this research area and its applications. We hope that this Issue will provide a good platform for researchers in different areas of topology and its applications to come together and exchange ideas on how we can further develop and apply topology. Potential topics include, but are not limited to, the following:

- Function spaces and hyperspaces;
- Uniform spaces;
- Topological algebra;
- Cardinal invariants;
- Selection principles theory;
- Game theory in topology;
- Fuzzy topology;
- Soft and rough topological spaces;
- Digital topology;
- Fixed point theory;
- Topological methods in analysis;
- Combinatorial topology.

---

### Guest Editor

Prof. Dr. Ljubiša D. R. Kočinac  
Faculty of Sciences and Mathematics, University of Niš, 18000 Niš,  
Serbia

## About the Journal

### Message from the Editor-in-Chief

*Axioms* is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Humberto Bustince

Department of Statistics, Computer Science and Mathematics, Public University of Navarra, 31006 Pamplona, Spain

---

### Author Benefits

#### Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High visibility:

indexed within SCIE (Web of Science), dblp, and other databases.

#### Journal Rank:

JCR - Q2 (Mathematics, Applied) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.7 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
